

The Cambridge School of Weston

School Health Services Self-Administration Agreement Option

With parents permission, students will be allowed to self-administer prescription and non-prescription medication while participating in the 2022 CSW Panama Off-campus course. If it's preferable to you, course leaders can hold medication for students and dispense as needed. Please contact us if that is your preference.

1. All prescription and non-prescription medication must be kept in its appropriately labeled, original container, and managed as follows:
 - Prescription labels must have the name of the student, name of the medication, dosage, route and frequency or time of administration and any other instructions.
 - Non-prescription medication (i.e, supplements, over the counter) must have the student's name affixed to the original container.
 - Only the course leaders may store and administer the medication if not kept in students personal belongings.
2. Sharing and/or borrowing of medication with another student is strictly prohibited.
3. Permission to self-administer may be revoked if the student violates school policy governing administration of medication and/or these regulations. Additionally, students may be subject to discipline, up to and including expulsion as appropriate.

Parent signature: _____ **Date:** _____

(I) have read and agree to the above criteria and give permission for my child to carry/self administer their medication.

Student signature: _____ **Date:** _____

(I) agree to comply with the above criteria.

Teacher signature: _____ **Date:** _____

(Patricio Hernandez or Steve Scrimshaw)

_____ No, we wish to have the course leaders handle our students prescription medication.
